

West Norfolk Supermarkets
Covid 19 Emergency measures instore and on-line
30th April

Supermarkets are asking everyone to only send one adult per household to shops. This helps to keep people a safe distance apart and also helps to reduce queues to get into stores. Some store teams will be asking groups with more than one adult to choose one adult to shop and will ask other adults to wait. Children are welcome if they are not able to stay at home.

The government is sharing information with some supermarkets on those people they have identified as being most in need of support. This means those people they have identified as being '**extremely vulnerable**' and who **have no-one to help them get food and essentials**.

You can find out how government have identified extremely vulnerable groups here <https://www.gov.uk/coronavirus>. Please be aware that supermarkets are not able to add customers to this list.

Supermarkets are then trying to cross reference this information with their current clients in order to be able to offer them priority slots for online services.

If it's possible to shop safely in-store, rather than online, please do so. This helps to free up online slots for the more vulnerable customers.

To ensure there is enough for everyone, we will occasionally place purchase limits on certain products that are in high demand.

Latest update about online deliveries

We recently increased the number of delivery slots to 700,000 a week. However, demand for home delivery is very high right now and not everyone will be able to get a slot.

The government is sharing information on those people as being 'extremely vulnerable' and who have no-one to help them get food and essentials. We have only been provided information on customers who meet both criteria, and we can only contact people on this list who are existing Asda customers. Sign in to your Asda account and make sure your email address, phone number and address match those you gave the government. This will help us identify you.

However, demand for home delivery is very high right now and we know that not everyone will be able to get a slot. If you are able to shop in store safely, or able to help others – please be assured our stores are safe and hygienic to visit and well stocked through the day.

Click and Collect

We offer a range of collection types at our stores and will show you what's available in your area when you book a Collection. When you place your order, we'll send you collection instructions, so you know exactly where to go when you arrive.

Latest update about online deliveries

The government has provided a list of extremely vulnerable members of the community. We have contacted all our existing online customers that appear on this list to let them know when they can visit our website to book a delivery slot for their online shopping.

If you are on the government's list of extremely vulnerable people and would like us to contact you in the future when we release more delivery slots on our website, you will need an online shopping account. If you don't already have an account, you can register by visiting www.iceland.co.uk

The online shopping service is subject to a delivery radius and availability. If you live outside of the delivery area of your local store, you may not be able to book an online shopping delivery. Our website is currently still accepting orders. Demand is very high and we're showing all the capacity we currently have. Delivery slots are available up to 6 days in advance and are filling up quicker than usual. If our website isn't showing your usual slot, please select another day to see other delivery slots that are available. Unfortunately, we are unable to book an online delivery over the phone or email.

Purchasing restrictions

To ensure more customers have access to everyday essentials we are introducing a restriction of only 3 items per customer on every product line online. Where products are on a multi buy, e.g. 10 for ?3, you can still enjoy the offer if you buy a combination of 10 products in the same offer, but you will be limited to 3 of any variety in that offer.

Latest update about online deliveries

Only deliver to certain areas. Need to register to check if delivery is available but still open for registrations to new customers.

There is a high demand for delivery slots, so we would recommend booking as far in advance as possible. The website shows all delivery slots available - unfortunately, there are no further options or slots other than those shown.

Food parcels

A Morrisons Food Box is a fixed selection of essential groceries that we can deliver to customers' homes. We aim to support more customers with this quick and simple option, in addition to our standard home delivery service.

The meat and vegetarian essentials boxes contain a selection of items based on our current availability of products, therefore we are unable to specify exact contents of each box. You will however receive a variety of different foods in each box. Our delivery partner DPD deliver 7 days a week, between 6am and 8pm. DPD will let you know on the day, when your delivery time slot will be. If you're not in to take the delivery, we'll leave your box in a safe place. Our food boxes are chilled and insulated.

Volunteer voucher schemes

The eGift and Gift Card can be used to provide funds to another person, whether that's a friend, family member or other volunteer, who is conducting your grocery shopping on your behalf. You can also use them to give as a gift. They can be used at any Morrisons store in the UK and are a great way to make sure funds are available for your shopping needs without the need to leave your home.

Latest update about online deliveries

If you got a letter from the NHS and registered on GOV.UK as extremely vulnerable to coronavirus, your details will be shared with us. We'll prioritise these customers for home delivery slots, and we'll be in touch to let you know when this has happened. We are doing our best to offer online delivery slots to elderly and vulnerable customers and these customers have priority over all slots

For vulnerable customers who have been offered a slot and are unable to place their order online, we are offering a telephone ordering service. We are not currently able to support new website registrations without an invite. If you're a vulnerable customer and you've had an email and text from us, you will be able to register by following the instructions in the message.

Please make sure that you check if you can book a slot before you start adding products to your basket. If you can't get a slot straight away, please keep trying, as we'll open up slots throughout the week.

Click and Collect

For online customers who can travel we are expanding our Click & Collect service. Customers can place their order online as usual and pick it up from a collection point in the store car park.

Latest update about online deliveries

The UK Government has supplied us with a list of customers in England, Scotland and Wales who are the most vulnerable, and we're opening up priority slots for these customers. We've emailed customers on this list to let them know that they have access to priority slots. There's a high demand for online deliveries and we're working at full capacity. We've increased our home delivery and Click+Collect capacity to around 780,000 slots. To help us pick more orders, stores with an online grocery operation will open their doors a little later – from 8am.

Tesco customers who aren't on the UK Government's list can ask to access the priority slots by calling 0800 917 7359. New customers are still able to register

We know that it's difficult right now to get a delivery slot for online shopping. We're at full capacity for the next few weeks, so if you're able to shop in-store safely instead of booking a delivery, it would be a great help. This will allow us to start freeing up more slots for the more vulnerable.

Click and Collect

Click+Collect is a convenient way for you to pick up your groceries. Book a 2-hour collection slot at your preferred store and your groceries will be waiting for you in temperature-controlled storage. We'll then give you an electronic delivery note to sign, as well as a physical receipt

Latest update about online deliveries

New customers able to register. We have prioritised delivery slots for customers who we have been able to identify as being vulnerable or over the age of 70, and we're in the process of contacting our customers on the list of clinically vulnerable people, which the governments have shared with us., we are asking customers to wait for communication from us rather than trying to get in touch. We're increasing slots significantly and we have extra people-hours each week picking [waitrose.com](https://www.waitrose.com) orders and hundreds of extra drivers. We know we won't be able to reach everybody however we're making every effort to reach as many of our customers as possible.

Click & Collect

You can still select this option to collect at your nearest Waitrose or selected Co-Op stores and Booths. You can also use Collect+. If any collection points aren't available, they will be removed from your list of options at the online checkout stage. Family, friends or volunteers over the age of 18 can also pick up a [waitrose.com](https://www.waitrose.com) grocery Click & Collect order on behalf of a customer that is self-isolating. The person collecting the order must have the order confirmation number and a form of ID with them.
